

SMOKE OUTLOOK

NC Oregon – Grasshopper Fire

8/10 - 8/11

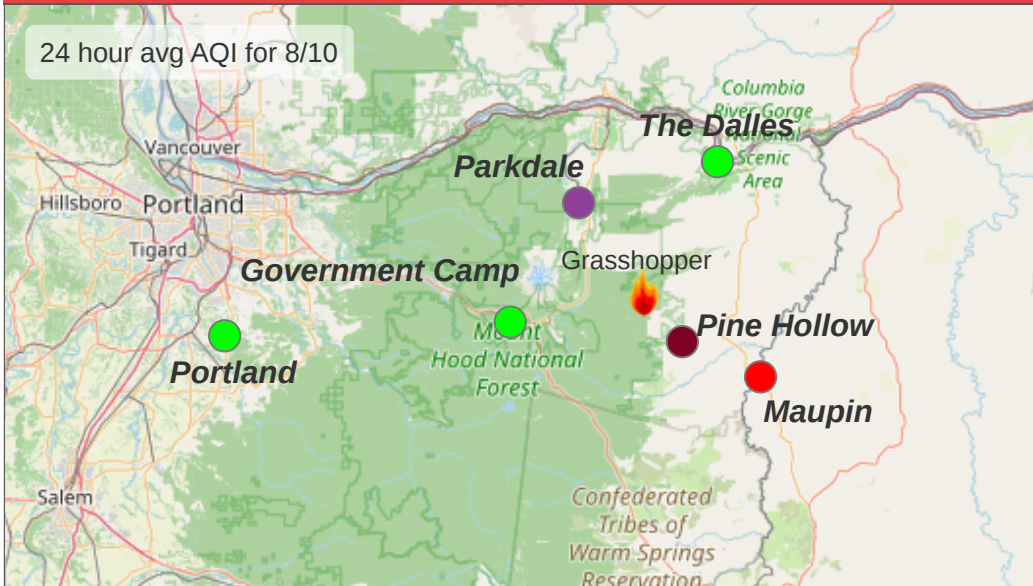

ARA: Andrew Schauer (andrew.schauer@usda.gov)

Issued: 07:51 PDT 8/10/26

Interagency Wildland Fire Air Quality Response Program

AIR QUALITY ADVISORY: Advisories in effect for numerous Oregon counties ([more info](#))

ROADWAY HAZARD: Intermittent road closures along Hwy 35 ([more info](#))

FIRE

The [Grasshopper](#) fire is currently estimated at 63659 acres and is 23% contained. Fire activity for the [Grasshopper](#) fire is expected to remain active.

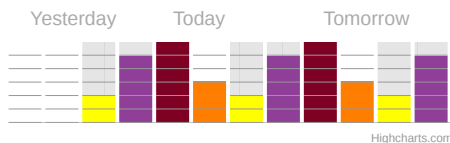

SMOKE

The areas immediately east of the Grasshopper Fire will continue to experience the greatest smoke impacts. Pine Hollow will likely average HAZARDOUS AQI over the next 24 hours, with Wamic, Tygh Valley, and Maupin all reaching VERY UNHEALTHY in the morning and averaging UNHEALTHY for the forecast period. While this is concerning, all of these communities can expect to recover to MODERATE to UNHEALTHY FOR SENSITIVE GROUPS (USG) during the afternoon and evening. The Hood River Valley can also expect significant impacts, reaching HAZARDOUS AQI this morning before improving to MODERATE later in the day. Areas west of the fire, including Government Camp and the Willamette Valley, should remain GOOD for the next 24 hours.

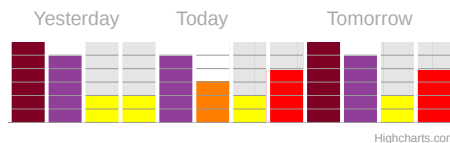

Heavy smoke along the Hwy 35 corridor between Hwy 26 and Parkdale (MP 64 to 72) is reducing visibility, which will lead to intermittent road closures. Check the [ODOT TripCheck website](#) for current closures.

Check the [Fire and Smoke Map](#) for current Air Quality conditions. If no air monitoring data is available in your area, visibility can be used as a guide. Learn more at [Oregon DEQ's WebPage](#).

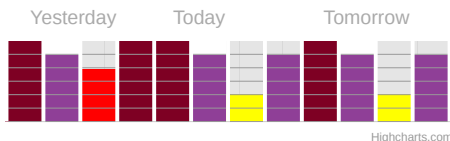

Parkdale HAZARDOUS air quality in the Hood River Valley along the Hwy 35 corridor.

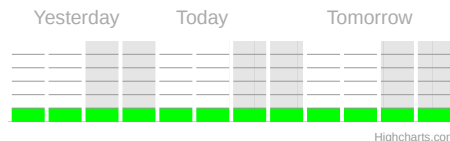

Maupin Expect VERY UNHEALTHY Air Quality in the morning, improving through the day.

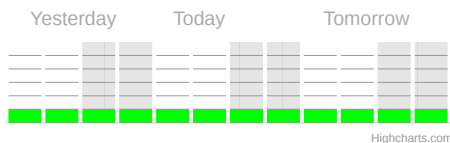

Pine Hollow Heavy smoke in the morning and overnight. Improving in the afternoon.

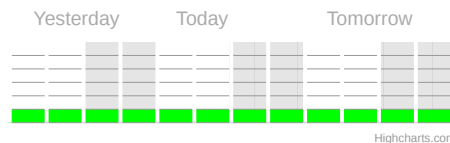

The Dalles GOOD Air Quality today.

Government Camp Minimal smoke impacts.

Portland Minimal smoke expected.

AIR QUALITY INDEX (AQI)

	Hazardous (H)	Everyone should avoid any outdoor activity
	Very Unhealthy (VU)	Everyone should avoid all physical outdoor activity
	Unhealthy (U)	People within Sensitive Groups should avoid all physical activity
	Unhealthy for Sensitive Groups (USG)	People within Sensitive Groups should reduce prolonged or heavy exertion
	Moderate (M)	Unusually sensitive individuals should consider limiting prolonged or heavy exertion
	Good (G)	None
