

SMOKE OUTLOOK

NC Oregon – Grasshopper Fire

8/04 - 8/05

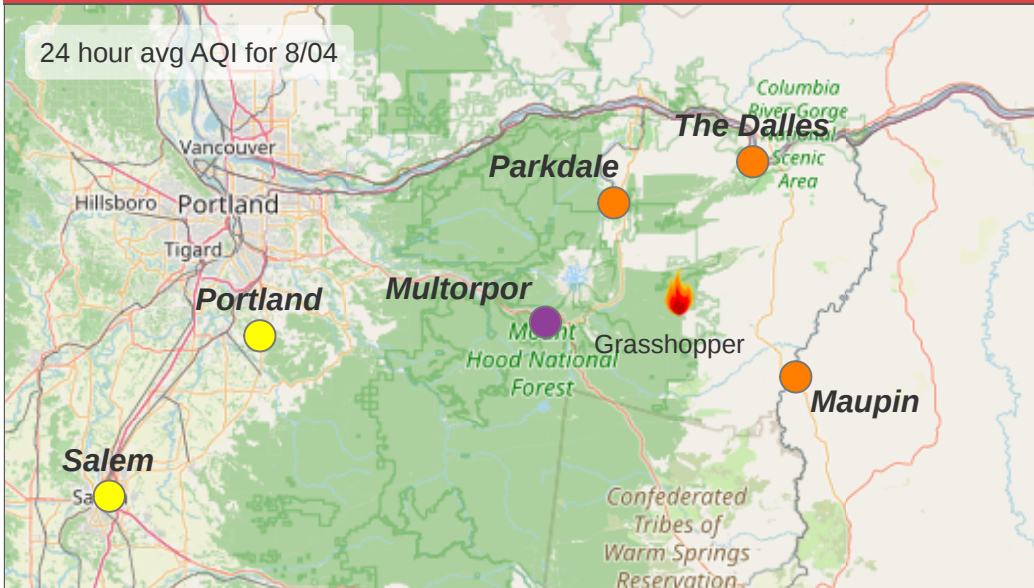

ARA: Andrew Schauer (andrew.schauer@usda.gov)

Issued: 07:29 PDT 8/04/26

Interagency Wildland Fire Air Quality Response Program

AIR QUALITY ADVISORY: Advisories in effect for numerous Oregon counties ([more info](#))

HEAT ADVISORY: NWS Heat Advisory from noon Tues. through 11 pm Weds. ([more info](#))

FIRE

The [Grasshopper Fire](#) fire is currently estimated at 34659 acres and is 19% contained. Fire activity for the [Grasshopper Fire](#) fire is expected to remain active.

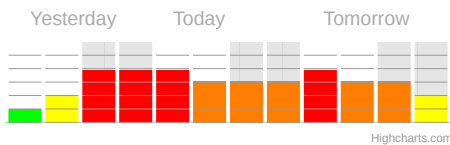

SMOKE

Easterly winds will continue to push smoke from the Grasshopper Fire towards the coast. This pattern will also bring smoke from multiple large fires in the region, driving widespread Air Quality impacts across our Outlook Area. The Portland and Salem metro areas can expect to average MODERATE AQI over the next 24 hours, reaching UNHEALTHY FOR SENSITIVE GROUPS (USG) for extended periods in the afternoon and evening. The Hwy 26 corridor near Government Camp will continue to see conditions in the VERY UNHEALTHY to HAZARDOUS range. Maupin is also seeing HAZARDOUS AQI this morning, but should average USG through the day. Although the smoke from the Grasshopper will generally be moving away from Wasco, the Dalles, and Parkdale, regional smoke will keep AQI levels elevated between USG and VERY UNHEALTHY, averaging USG over the next 24 hours.

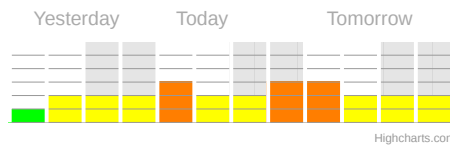

Widespread impacts to Air Quality are expected to continue throughout Northern Oregon tomorrow.

Air Quality can change unexpectedly. Check the [Fire and Smoke Map](#) for current Air Quality conditions. If no air monitoring data is available in your area, visibility can be used as a guide. Learn more at [Oregon DEQ's WebPage](#).

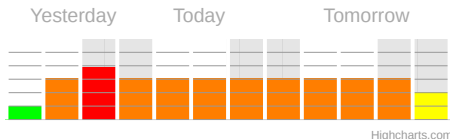

Parkdale Another day of USG to UNHEALTHY conditions.

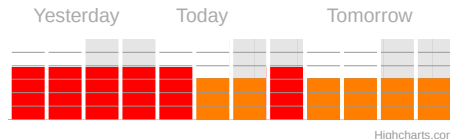

Portland Significant smoke impacts today and tonight.

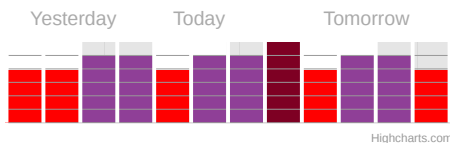

The Dalles Expect USG Air Quality overall, with periods of UNHEALTHY possible.

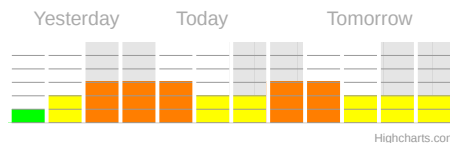

Maupin Expect UNHEALTHY Air Quality in the morning and overnight, with USG during the day.

Multorpor Expect UNHEALTHY to HAZARDOUS Air Quality, with worst conditions in the afternoon and evening.

Salem Similar conditions as yesterday; more smoke in the morning.

AIR QUALITY INDEX

	Hazardous (H)	Everyone should avoid any outdoor activity
	Very Unhealthy (VU)	Everyone should avoid all physical outdoor activity
	Unhealthy (U)	People within Sensitive Groups should avoid all physical activity
	Unhealthy for Sensitive Groups (USG)	People within Sensitive Groups should reduce prolonged or heavy exertion
	Moderate (M)	Unusually sensitive individuals should consider limiting prolonged or heavy exertion
	Good (G)	None
