

SMOKE OUTLOOK

NC Oregon – Grasshopper Fire

8/13 - 8/14

ARA: Andrew Schauer (andrew.schauer@usda.gov)

Issued: 07:54 PDT 8/13/26

Interagency Wildland Fire Air Quality Response Program

AIR QUALITY ADVISORY: Advisories in effect for numerous Oregon counties ([more info](#))

FIRE

The [Grasshopper](#) fire is currently estimated at 85075 acres and is 20% contained. Fire activity for the [Grasshopper](#) fire is expected to remain active.

SMOKE

A shift in the wind pattern will bring smoke from other fires in Washington and British Columbia into our area today, increasing AQI levels in many locations. Dufur and Pine Hollow will once again see HAZARDOUS air quality this morning, returning to MODERATE to UNHEALTHY levels this afternoon and evening. Parkdale, Wamic, Tygh Valley, and Maupin will likely see UNHEALTHY AQI this morning, then recovering between MODERATE and UNHEALTHY FOR SENSITIVE GROUPS (USG) this afternoon and evening. AQI from The Dalles and Hood River over to Portland will be GOOD this morning, increasing through the day to MODERATE to USG by this evening. A similar pattern is expected tomorrow.

Heavy smoke is reducing visibility along Hwy 35 and Hwy 197. Check the [ODOT TripCheck website](#) for closure information.

Check the [Fire and Smoke Map](#) for current Air Quality conditions. If no air monitoring data is available in your area, visibility can be used as a guide. Learn more at [Oregon DEQ's WebPage](#).

Parkdale Smoke moving into the area from multiple other fires in the PNW.

Dufur HAZARDOUS AQI overnight and in the early morning, recovering in the evening.

Pine Hollow Heavy smoke in the morning and overnight. Improving in the afternoon.

Maupin HAZARDOUS Air Quality in the morning improving through the day.

The Dalles Regional smoke moving into the area today and tomorrow.

Portland Regional smoke moving into the area today and tomorrow.

AIR QUALITY INDEX (AQI)

	Hazardous (H)
	Very Unhealthy (VU)
	Unhealthy (U)
	Unhealthy for Sensitive Groups (USG)
	Moderate (M)
	Good (G)
