Issued: 06:52 PDT 9/04/26

Interagency Wildland Fire Air Quality Response Program

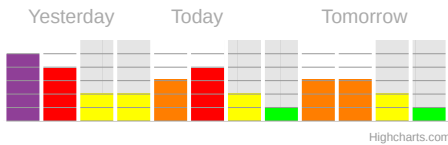

FIRE

The **Austin** fire is currently estimated at 12,610 acres and is 21% contained. Fire activity for the **Austin** fire is expected to decrease. The **Grasshopper** fire is currently estimated at 93,993 acres and is 84% contained. Fire activity for the **Grasshopper** fire is expected to remain low. The Narrows fire is currently estimated at 302 acres and is 27% contained. Fire activity for the Narrows fire is expected to remain low.

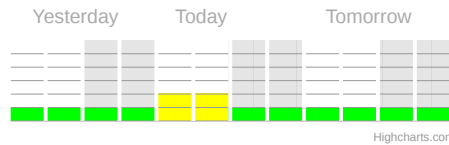

SMOKE

Today, the Austin, Grasshopper, and Narrows Fires are expected to produce only limited smoke. Most of north central Oregon should have GOOD Air Quality. The worst smoke and poorest Air Quality are expected this afternoon, mainly very close to the Austin Fire. People nearest the Austin Fire may notice more smoke later today. When Air Quality is poor, children, older adults, and people with health conditions may be affected more by smoke and should take extra precautions. Smoke conditions can change quickly, so stay informed and be ready to protect your health if conditions get worse.

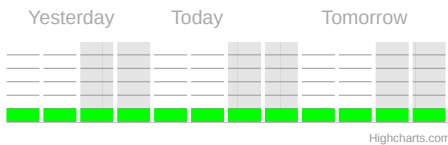

Ripplebrook Smoke will increase in the morning and become worse by the afternoon, then clearing in the evening.

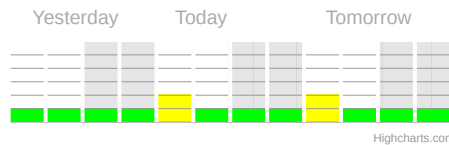

Pine Hollow GOOD air quality expected most of the day with MODERATE AQI in the morning and afternoon.

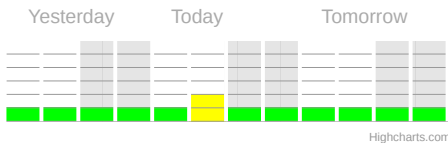

Portland Smoke is not anticipated to impact Portland today.

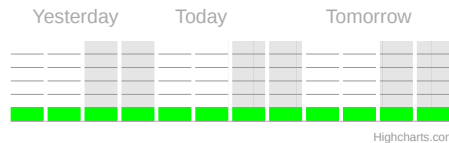

Estacada GOOD air quality expected most of the day, briefly reaching MODERATE AQI in the morning.

Dufur GOOD air quality anticipated with a slight chance to reach MODERATE in the afternoon.

Maupin GOOD air quality expected.

AIR QUALITY INDEX (AQI)

Hazardous (H)
Very Unhealthy (VU)
Unhealthy (U)
Unhealthy for Sensitive Groups (USG)
