

SMOKE OUTLOOK

NC Oregon – Austin, Grasshopper, & Narrows Fires

9/05 - 9/06

ARA: Adam Simmons - ARA (adam.simmons@usda.gov)

Issued: 06:41 PDT 9/05/26

Interagency Wildland Fire Air Quality Response Program

FIRE

The **Austin** fire is currently estimated at 12,610 acres and is 21% contained. Fire activity for the **Austin** fire is expected to decrease. The **Grasshopper** fire is currently estimated at 93,993 acres and is 91% contained. Fire activity for the **Grasshopper** fire is expected to remain low. The Narrows fire is currently estimated at 302 acres and is 27% contained. Fire activity for the Narrows fire is expected to remain low.

SMOKE

With reduced fire activity, smoke should stay limited and is not likely to have widespread impacts. Most of north central Oregon should have GOOD Air Quality today. The poorest Air Quality is expected in the direct vicinity of the Austin Fire and in areas downriver from the fire. The worst smoke is expected from morning into the afternoon. Air Quality should improve in the evening and stay GOOD overnight. When Air Quality is poor, children, older adults, and people with health conditions may be more affected by smoke and should take extra precautions. Smoke conditions can change quickly, so stay informed and be ready to protect your health if conditions get worse.

Ripplebrook Smoke will increase in the morning, become worse by the afternoon, then clearing in the evening.

Pine Hollow MODERATE AQI becoming GOOD in the afternoon.

Portland Minimal smoke impacts anticipated in the morning. GOOD AQI

Estacada GOOD air quality expected most of the day, with a chance to briefly reach the low end of MODERATE AQI in the morning.

Dufur GOOD air quality anticipated.

Maupin GOOD air quality expected.

AIR QUALITY INDEX (AQI)

Hazardous (H)
Very Unhealthy (VU)
Unhealthy (U)
Unhealthy for Sensitive Groups (USG)
Moderate (M)
Good (G)
